Summary

Small Scale, printable models for the 2026 FIRST Robotics game Rebuilt.

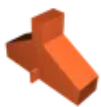

[Hobby & Makers](#) > [RC & Robotics](#)

These models are a 1/4 scale version of the FRC Game Rebuilt. They can be scaled to any size for printing. In the past, we've used these for visualizing ideas.

This scale was chosen to be used with XRP Robots and a 1.57" foam ball.

At 1/4 scale, they may need to be split. The version with legs are designed to minimize filament and print time at the larger scale.
